

Please consider rejecting the NAB's petition 04-160. As a consumer I am fed up with the insipid pablum that commercial radio insists on pumping out, 24 hrs a day, 7days a week all across the country. I travel alot, and aside from satalite radio, about the only station I can seem to stomach is NPR when I can find it. Please, please, allow consumers to decide for themselves what they want to listen to.

Thank You For Your Consideration,

Robert Vanderhoof
